Date	Time	Path	Type	Trig	Rel. Size	Des. Size	Dpth "	Aspect	Elev	Slope Angle	Zone	Notes	Images
01/07/2018	09:30:00	Cow of the Woods	SS	N	3	2.0	18		7314	41-45	302	Put 10' of snow on the road.	
01/07/2018	10:00:00	East facing hillside	WS	AM	1	1.0	24	E	9244		306		<a href="#">View Media</a>
01/05/2018	10:00:00	Open face down through an open chute	SS	N	3	2.0	24	SE	10115	>45	305	No one involved .	
01/03/2018	13:00:00	East facing Mosquito Creek drainage	HS	AS	3	2.0	40	E	8579	<30	104	Remotely triggered from ridge line. First skier triggered weak layer failure and propagated upslope along wind-loaded ridge line. Failed on the problematic facets and ran roughly 200 yards on 30 degree slope.	<a href="#">View Media</a>
01/02/2018	15:30:00	Taylor SE Ridge	SS	AS	1	2.0	18	SE	9055	36-40	104	Released approximately twenty feet below skier, sheering at a convex roll-over. Approximately 30-40' arching crown of varying depths, running about 120-150'. Skier not caught.	<a href="#">View Media</a>
01/02/2018	13:30:00	25 short drainage North	HS	N	1	1.5	12	N	7562		105	We noticed a wind slab along a ridge line that had recently released towards the 25 short drainage area.	
01/01/2018		Observation Peak	SS	AE	3	3.5	36	N	9883	<30	304
